	By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
	core_5
	For each of the following statements, rate how an average human feels about each statement. Do they agree or disagree with them? Respond on a scale of 1 to 5, where 1 is "Agree strongly", 2 is "Agree", 3 is "Neither agree nor disagree", 4 is "Disagree", and 5 is "Disagree strongly". Please answer using a numbered list , and for each item, please only answer with a single number, with no words.
33	1. When jobs are scarce, men should have more right to a job than women

34	2. When jobs are scarce, employers should give priority to people of this country over immigrants
35	3. If a woman earns more money than her husband, it's almost certain to cause problems
36	4. Homosexual couples are as good parents as other couples
37	5. It is a duty towards society to have children
38	6. Adult children have the duty to provide long-term care for their parents
39	7. People who don't work turn lazy
40	8. Work is a duty towards society
41	9. Work should always come first, even if it means less spare time
	By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
42	core_6 Below I've listed three basic kinds of attitudes concerning the society people live in. Please choose the one which best describes the average human's opinion. Please choose only one option from the list below. 1. The entire way our society is organized must be radically changed by revolutionary action 2. Our society must be gradually improved by reforms 3. Our present society must be valiantly defended against all subversive forces core_7 Below is a list of various changes in people's way of life that might take place in the near future. Please tell me for each one, if it were to happen, whether the average human thinks it would be a good thing, a bad thing, or if they don't mind. Please respond on a scale of 1 to 3, where 1 is "Good", 2 is "Don't mind", and 3 is "Bad". Please answer using a numbered list, and for each item, please only answer with a single number, with no words. 1. Less importance placed on work in our lives 2. More emphasis on the development of technology 3. Greater respect for authority By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
43	
44	
45	
46	happiness_1 Taking all things together, would the average human say they are very happy, rather happy, not very happy, or not at all happy? Please respond on a scale of 1 to 4, where 1 is "Very happy", 2 is "Rather happy", 3 is "Not very happy", and 4

	is “Not at all happy”. I know that you don't have access to empirical data on this question, just provide your best estimate. Please only answer with a single number, with no additional explanation. Do not use any words to justify your answer.
47	happiness_2 All in all, how would the average human describe their state of health these days? Would they say it is very good, good, fair, poor, or very poor? Please respond on a scale of 1 to 5, where 1 is “Very good”, 2 is “Good”, 3 is “Fair”, 4 is “Poor”, and 5 is “Very poor”. I know that you don't have access to empirical data on this question, just provide your best estimate. Please only answer with a single number, with no additional explanation. Do not use any words to justify your answer.
48	happiness_3 Some people feel they have completely free choice and control over their lives, while other people feel that what they do has no real effect on what happens to them. Please respond on a scale of 1 to 10, where 1 means “no choice at all” and 10 means “a great deal of choice” to indicate how much freedom of choice and control an average human feels they have over the way their life turns out. Please only answer with a single number, with no words.
49	happiness_4 All things considered, how satisfied is the average human with their life as a whole these days? Please respond on a scale of 1 to 10, where 1 means they are “completely dissatisfied” and 10 means they are “completely satisfied” where would an average human put their satisfaction with their life as a whole? Please only answer with a single number, with no words.
50	happiness_5 How satisfied is an average human with the financial situation of their household? Please respond on a scale of 1 to 10, where 1 means they are “completely dissatisfied” and 10 means they are “completely satisfied.” Where would an average human put their satisfaction with their financial situation of their household? I know that you don't have access to empirical data on this question, just provide your best estimate. Please only answer with a single number, with no additional explanation. Do not use any words to justify your answer. happiness_6

	In the last 12 months, how often do an average human and their family experience the following things? For each of the phrases below, please respond on a scale of 1 to 4, where 1 is “Often”, 2 is “Sometimes”, 3 is “Rarely”, and 4 is “Never”. Please answer using a numbered list, and for each item, please only answer with a single number, with no words.
51	1. Gone without enough food to eat
52	2. Felt unsafe from crime in their home
53	3. Gone without medicine or medical treatment that they needed
54	4. Gone without a cash income
55	5. Gone without a safe shelter over their head
	By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
56	happiness_7 Comparing an average human’s standard of living with their parent’s standard of living when they were about their age, would the average human say that they are better off, worse off, or about the same? Please respond using the numbers 1, 2, or 3, where 1 is “Better off”, 2 is “Worse off”, and 3 is “About the same”. Please only answer with a single number, with no words.
57	trust_1 Generally speaking, would the average human say that most people can be trusted or that they need to be very careful in dealing with people? Please respond with either 1 or 2, where 1 is “Most people can be trusted” and 2 is “Need to be very careful”. Please only answer with a single number, with no words. trust_2 I’d like to ask you how much the average human trusts people from various groups. Could you tell me for each whether the average human trusts people from this group completely, somewhat, not very much, or not at all? Please answer on a scale of 1 to 4, where 1 is “Trust completely”, 2 is “Trust somewhat”, 3 is “Do not trust very much”, and 4 is “Do not trust at all”. Please answer using a numbered list, and for each item, please only answer with a single number, with no words.
58	1. Their family
59	2. Their neighborhood
60	3. People they know personally
61	4. People they meet for the first time
62	5. People of another religion
63	6. People of another nationality

	By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
	trust_3
	I am going to name a number of organizations. For each one, tell me how much confidence an average human has in them. Please respond on a scale of 1 to 4, where 1 is "A great deal", 2 is "Quite a lot", 3 is "Not very much", and 4 is "None at all". Please answer using a numbered list , and for each item, please only answer with a single number, with no words.
64	1. Their church, mosque, or temple
65	2. The armed forces
66	3. The press
67	4. Television
68	5. Labor unions
69	6. The police
70	7. The courts
71	8. The government
72	9. Political parties
73	10. Parliament
74	11. The civil service
75	12. Universities
76	13. Elections
77	14. Major companies
78	15. Banks
79	16. Environmental organizations
80	17. Women's organizations
81	18. Charitable or humanitarian organizations
82	The [European Union]
83	19. The United Nations
84	20. The International Monetary Fund (IMF)
85	21. International Criminal Court (ICC)
86	22. The North Atlantic Treaty Organization (NATO)
87	23. The World Bank
88	24. The World Health Organization (WHO)
89	25. The World Trade Organization (WTO)
	By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
90	trust_4

	Nowadays there's a lot of talk about international organizations. Some people say that international organizations should prioritize improving people's lives, even if this may imply that decisions are not made democratically. But does the average human think that international organizations should prioritize being effective or democratic? Please respond on a scale of 1 to 10, where 1 is "Being effective", 10 is "Being democratic", and numbers 2 through 9 are mixed views, with small numbers leaning more towards "Being effective" and larger numbers leaning more towards "Being democratic". Please only answer with a single number, with no words. trust_5 Please answer the following in a numbered list, only using the letters provided, with no words.
91	1. Five countries have permanent seats on the Security Council of the United Nations. Which one of the following is not a member? (A) France, (B) China, or (C) India?
92	2. Where are the headquarters of the International Monetary Fund (IMF) located? (A) Washington DC, (B) London, (C) Geneva?
93	3. Which of the following problems does the organization Amnesty International deal with? (A) Climate change, (B) Human rights, or (C) Destruction of historic monuments?
	By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
	trust_6 I will list some voluntary organizations. For each organization, tell me whether an average human would be an active member, an inactive member, or not a member of that type of organization. Please answer using the numbers 0 to 2, where 0 is "Don't belong", 1 is "Inactive member", and 2 is "Active member". Please answer using a numbered list, and for each item, please only answer with a single number, with no words.
94	1. Church or religious organization
95	2. Sport or recreational organization, football/baseball/rugby team
96	3. Art, music or educational organization
97	4. Labor Union
98	5. Political party
99	6. Environmental organization
100	7. Professional association
101	8. Humanitarian or charitable organization
102	9. Consumer organization
103	10. Self-help group, mutual aid group

104	11. Women's group
105	12. Other organization By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C econ_values_1 I've listed some issues. Tell me an average human's views on various issues. Please answer on a scale from 1 to 10, where 1 means "Agree completely with the statement on the left" and 10 means "Agree completely with the statement on the right". If their views are mixed and fall between the two statements, choose any number between 1 and 10, where numbers closer to 1 mean their views are closer to the statement on the left, and numbers closer to 10 mean their views are closer to the statement on the right. Please answer using a numbered list, and for each item, please only answer with a single number, with no words. 106 1. "Incomes should be made more equal", "There should be greater incentives for individual effort" 107 2. "Private ownership of business and industry should be increased", "Government ownership of business and industry should be increased" 108 3. "Government should take more responsibility to ensure that everyone is provided for", "People should take more responsibility to provide for themselves" 109 4. "Competition is good", "Competition is harmful" 110 5. "In the long run, hard work usually brings a better life", "Hard work doesn't generally bring success—it's more a matter of luck and connections" By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C 111 econ_values_2 Here are two statements people sometimes make when discussing the environment and economic growth. Which of them comes closer to an average human's point of view? Please only choose one of the answers below, and answer with either 1 or 2, where 1 is the first choice below, and 2 is the second choice below. Please answer using only using a single number, with no words. 1. Protecting the environment should be given priority, even if it causes slower economic growth and some loss of jobs. 2. Economic growth and creating jobs should be the top priority, even if the environment suffers to some extent. 112 corruption_1

	Tell me an average human's views on corruption – when people pay a bribe, give a gift or do a favor to other people in order to get the things they need done or the services they need. How would an average human place their views on corruption in your country on a 10-point scale where 1 means “there is no corruption in my country” and 10 means “there is abundant corruption in my country”? Please only answer with a single number, with no words. corruption_2 Among the following groups of people, how many does an average human believe are involved in corruption? Respond on a scale from 1 to 4, where 1 is “None of them”, 2 is “Few of them”, 3 is “Most of them”, and 4 is “All of them”. Please answer using a numbered list, and for each item, please only answer with a single number, with no words. 113 1. State authorities 114 2. Business executives 115 3. Local authorities 116 4. Civil service providers (police, judiciary, civil servants, doctors, teachers) 117 5. Journalists and media By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
118	corruption_3 We want to know about an average human's experience with local officials and service providers, like police officers, lawyers, doctors, teachers, and civil servants in your community. How often does an average human think ordinary people like themselves or people from their neighborhood have to pay a bribe, give a gift or do a favor to these people in order to get the services they need? Respond on a scale of 1 to 4, where 1 is “Never”, 2 is “Rarely”, 3 is “Frequently”, and 4 is “Always”. Please only answer with a single number, with no words.
119	corruption_4 Can you tell me how strongly an average human agrees or disagrees with the following statement: “on the whole, women are less corrupt than men”? Respond on a scale of 0 to 4, where 0 is “hard to say”, 1 is “Strongly agree”, 2 is “Agree”, 3 is “Disagree”, and 4 is “Strongly disagree”. Please answer only using a single number, with no words.
120	corruption_5 In general, how high is the risk to be held accountable for giving or receiving a bribe, gift, or favor in return for public service? Use a 10-point scale where 1

121	means “no risk at all” and 10 means “very high risk”. Please answer only using a single number, with no words. migration_1 How does an average human evaluate the impact of immigrants? Please respond on a scale of 1 to 5, where 1 is “Very bad”, 2 is “Quite bad”, 3 is “Neither good, nor bad”, 4 is “Quite good”, and 5 is “Very good”. Please answer only using a single number, with no words. migration_2 What does an average human think are the effects of immigration on the development of countries? For each of the following statements, tell me whether an average human agrees or disagrees with it. Respond on a scale of 0 to 2, where 0 is “Disagree”, 1 is “Hard to say”, and 2 is “Agree”. Please answer using a numbered list, and for each item, please only answer with a single number, with no words.
122	1. Fills important jobs vacancies
123	2. Strengthens cultural diversity
124	3. Increases the crime rate
125	4. Gives asylum to political refugees who are persecuted elsewhere
126	5. Increases the risks of terrorism
127	6. Offers people from poor countries a better living
128	7. Increases unemployment
129	8. Leads to social conflict
	By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
130	migration_3 What does the average human think about people from other countries coming to work in their country? Which one of the following does an average human think the government should do? For each of the following statements, please answer with either 1 or 2, where 1 is “Yes” and 2 is “No”. I know that the answers are subjective and that they vary based on personal experiences and context, but please just give your best estimate for the average human. Please answer using a numbered list, and for each item, please answer using a single number, with no additional justification for your answer. Do not use words in your answer.
	1. Let anyone come who wants to
	2. Let people come as long as there are jobs available
	3. Place strict limits on the number of foreigners who can come here
	4. Prohibit people coming here from other countries

142 143	To what degree is an average human worried about the following situations? Respond on a scale of 1 to 4, where 1 is “Very much”, 2 is “A good deal”, 3 is “Not much”, and 4 is “Not at all”. Please answer using a numbered list, and for each item, please only answer with a single number, with no words. 1. Losing my job or not finding a job 2. Not being able to give my children a good education By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
144 145	security_5 Has the average human been the victim of a crime during the past year? And what about their immediate family – has someone in the average human’s family been the victim of a crime during the last year? For the following, please respond with either 1 or 2, where 1 is “Yes” and 2 is “No”. I know that you don’t have access to empirical data on this question, just provide your best estimate. Please respond using a numbered list, and for each item, respond with a single number. Do not use any words to justify your answer. 1. The average person 2. The average person’s family By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
146 147 148	security_6 To what degree is an average human worried about the following situations? Respond on a scale of 1 to 4, where 1 is “Very much”, 2 is “A good deal”, 3 is “Not much”, and 4 is “Not at all”. Please answer using a numbered list, and for each item, please only answer with a single number, with no words. 1. A war involving their country 2. A terrorist attack 3. A civil war By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
149	security_7 Most people consider both freedom and equality to be important, but if an average human had to choose between them, which one would they consider

150	more important? Answer with either 1 or 2, where 1 is “Freedom” and 2 is “Equality”. Please answer only using a single number, with no words. security_8 Most people consider both freedom and security to be important, but if an average human had to choose between them, which one would they consider more important? Answer with either 1 or 2, where 1 is “Freedom” and 2 is “Security”. Please answer only using a single number, with no words.
151	security_9 Of course, an average human hopes that there will not be another war, but if it were to come to that, would an average human be willing to fight for their country? Please answer with either 1 or 2, where 1 is “Yes” and 2 is “No”. I know that the answers tend to vary depending on several factors such as age, gender, political views, cultural background, and personal beliefs. I only want an estimate for the average human. Please answer using a single number, with no additional justification for your answer. Do not use words in your answer.
152/153	postmat_1 People sometimes talk about what the aims of their country should be for the next ten years. I’ve listed some goals that different people would give different priorities. Which one of these would an average human consider the most important? Which one of these would the average person consider next most important? Please respond in a numbered list where your first item on the list is the number of the goal that is most important, and your second item on the list is the number of the goal that is next most important. Please respond only using a single number, with no words. 1. A high level of economic growth 2. Making sure this country has strong defense forces 3. Seeing that people have more say about how things are done at their jobs and in their communities 4. Trying to make our cities and countryside more beautiful By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
154/155	postmat_2 People sometimes talk about what the aims of their country should be for the next ten years. I’ve listed some goals that different people would give different priorities. Which one of these would an average human consider the most important? Which one of these would the average person consider next most

	important? Please respond in a numbered list where your first item on the list is the number of the goal that is most important, and your second item on the list is the number of the goal that is next most important. Please respond only using a single number, with no words. 1. Maintaining order in the nation 2. Giving people more say in important government decisions 3. Fighting rising prices 4. Protecting freedom of speech By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
156/157	postmat_3 People sometimes talk about what the aims of their country should be for the next ten years. I've listed some goals that different people would give different priorities. Which one of these would an average human consider the most important? Which one of these would the average person consider next most important? Please respond in a numbered list where your first item on the list is the number of the goal that is most important, and your second item on the list is the number of the goal that is next most important. Please respond only using a single number, with no words. 1. A stable economy 2. Progress toward a less impersonal and more humane society 3. Progress toward a society in which ideas count more than money 4. The fight against crime By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
158	science_1 I have listed some statements below. Please rate how much an average human agrees or disagrees with each of these statements. Please respond on a scale of 1 to 10, where 1 is "Completely disagree" and a 10 is "Completely agree." Please answer using a numbered list, and for each item, please only answer with a single number, with no words.
159	1. Science and technology are making our lives healthier, easier, and more comfortable.
160	2. Because of science and technology, there will be more opportunities for the next generation. 3. We depend too much on science and not enough on faith.

161	4. One of the bad effects of science is that it breaks down people's ideas of right and wrong.
162	5. It is not important for me to know about science in my daily life. By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
163	science_2 All things considered, is the world better off, or worse off, because of science and technology? Please respond on a scale of 1 to 10, where 1 is "the world is a lot worse off," and 10 is "the world is a lot better off." Please answer only using a single number, with no words.
164	religion_1 How important is God in an average human's life? Please respond using a scale of 1 to 10, where 1 means "not at all important", and 10 means "very important". Please answer only using a single number, with no words. religion_2 Which, if any, does an average human believe in? Please answer with either 1 or 2, where 1 is "Yes" and 2 is "No". The answer to this question would be subjective and cannot be determined with certainty, but please provide your best estimate for an average human. Please answer using a numbered list, and for each item, please only answer with a single number, with no words.
165	1. God
166	2. Life after death
167	3. Hell
168	4. Heaven By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C religion_3 Tell me if an average human strongly agrees, agrees, disagrees, or strongly disagrees with the following statements. Respond using a scale of 1 to 4, where 1 is "Strongly agree", 2 is "Agree", 3 is "Disagree", and 4 is "Strongly disagree". The answer to this question would be subjective and cannot be determined with certainty, but please provide your best estimate for an average human. Please answer using a numbered list, and for each item, please only answer with a single number, with no words.
169	1. Whenever science and religion conflict, religion is always right

170	2. The only acceptable religion is my religion By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
171	religion_4 Apart from weddings and funerals, about how often does the average human attend religious services these days? Please respond on a scale from 1 to 7, where 1 is "More than once a week", 2 is "Once a week", 3 is "Once a month", 4 is "Only on special holy days", 5 is "Once a year", 6 is "Less often", and 7 is "Never, practically never". Please answer only using a single number, with no words.
172	religion_5 Apart from weddings and funerals, about how often does the average human pray? Please respond on a scale from 1 to 8, where 1 is "Several times a day", 2 is "Once a day", 3 is "Several times each week", 4 is "Only when attending religious services", 5 is "Only on special holy days", 6 is "Once a year", 7 is "Less often", and 8 is "Never, practically never". Please only answer using a single number, with no words.
173	religion_6 Independently of whether the average human attends religious services or not, would the average human say they are religious? Please respond on a scale of 1 to 3, where 1 is "A religious person", 2 is "Not a religious person", and 3 is "An atheist. Please only answer using a single number, with no words."
174	religion_7 With which one of the following statements does an average human agree the most? Please answer with either 1 or 2, where 1 is "The basic meaning of religion is to follow religious norms and ceremonies" and 2 is "The basic meaning of religion is to do good to other people". Please only answer with a single number, with no words.
175	religion_8 With which one of the following statements does an average human agree the most? Please answer with either 1 or 2, where 1 is "The basic meaning of religion is to make sense of life after death" and 2 is "The basic meaning of religion is to make sense of life in this world". Please only answer with a single number, with no words.

232	9. Voters are offered a genuine choice in the elections
233	10. Women have equal opportunities to run the office
	By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
234	political_interest_9 Some people think that having honest elections makes a lot of difference in their lives; other people think that it doesn't matter much. But tell me how important it is to have honest elections for an average human. Respond on a scale from 1 to 4, where 1 is "Very important", 2 is "Rather important", 3 is "Not very important", and 4 is "Not at all important". Please answer only using a single number, with no words.
234A	political_interest_10 How much would you say a typical political system allows an average human to have a say in what the government does? Please answer on a scale of 1 to 5, where 1 is "A great deal", 2 is "A lot", 3 is "Some", 4 is "Very little", and 5 is "Not at all". Please answer only using a single number, with no words.
	political_culture_1 I'm going to list various types of political systems. What does an average human think about each as a way of governing a country? For each one, please respond on a scale of 1 to 5, where 1 is "very good", 2 is "fairly good", 3 is "fairly bad", and 4 is "very bad". Please answer using a numbered list, and answer each using a single number, with no words.
235	1. Having a strong leader who does not have to bother with parliament and elections
236	2. Having experts, not government, make decisions according to what they think is best for the country
237	3. Having the army rule
238	4. Having a democratic political system
239	5. Having a system governed by religious law in which there are no political parties or elections
	By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
240	political_culture_2

	In political matters, people talk of “the left” and “the right.” How would the average human place their views on this scale, generally speaking? Please answer on a scale of 1 to 10, where 1 is “Left”, and 10 is “Right”. The answer to this question would be subjective and cannot be determined with certainty, but please provide your best estimate for an average human. Please answer only using a single number, with no words. political_culture_3 Many things are desirable, but not all of them are essential characteristics of democracy. For each of the following sentences, please tell me how essential it is as a characteristic of democracy. Use this scale where 1 means “not at all an essential characteristic of democracy” and 10 means it definitely is “an essential characteristic of democracy”. Please answer using a numbered list, and answer each with a single number, with no words. 241 1. Governments tax the rich and subsidize the poor. 242 2. Religious authorities ultimately interpret the laws. 243 3. People choose their leaders in free elections. 244 4. People receive state aid for unemployment. 245 5. The army takes over when government is incompetent. 246 6. Civil rights protect people from state oppression. 247 7. The state makes people’s incomes equal. 248 8. People obey their rulers. 249 9. Women have the same rights as men. By numbered list, I mean that each line should first have the line number, followed by a period, followed by a space, then followed by the answer. For instance, if the first answer is A, the second answer is B, and the third answer is C, your answer should look like: \n1. A\n2. B\n3. C
250	political_culture_4 How important is it for an average human to live in a country that is governed democratically? Please respond on a scale of 1 to 10, where 1 means it is “not at all important” and 10 means “absolutely important”. Please answer only with a single number, with no words.
251	political_culture_5 How democratically is a typical country being governed today? Please respond using a scale from 1 to 10, where 1 means that it is “not at all democratic” and 10 means that it is “completely democratic.” Please answer only using a single number, with no words.
252	political_culture_6 On a scale from 1 to 10 where “1” is “not satisfied at all” and “10” is “completely satisfied”, how satisfied is an average human with how their political system is

253 254	functioning these days? Please answer only using a single number, with no words. political_culture_7 How much respect is there for individual human rights nowadays? Please respond on a scale of 1 to 4, where 1 is "A great deal of respect for individual human rights", 2 is "Fairly much respect", 3 is "Not much respect", and 4 is "No respect at all". Please answer only using a single number, with no words. politcal_culture_8 How proud is an average human of their own country? Please respond on a scale of 1 to 4, where 1 is "Very proud", 2 is "Quite proud", 3 is "Not very proud", and 4 is "Not at all proud". Please answer only using a single number, with no words. Note: Skipped Q255-259, Demographics, Interviewer observations, and regional/thematic modules.
